CD/DVD

EVEREST™ II	Vibrant indelible images, faster than ever
PRISMPUS!™	Speed, quality, and economy disc after disc
LIBERTY™	World class printing from your desktop

INNOVATIVE TECHNOLOGY, ASTONISHING QUALITY

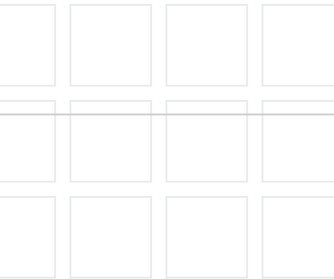

The industry leader in CD/DVD publishing brings you the most innovative, versatile, high-performing print technologies available today. Stunning, professional results every time, on-demand. Whether you need to print spectacular photos or serial numbers, the world's most advanced label printing technology conveys your company's message and image flawlessly—the best quality text and graphics printed directly to the surface of your CD/DVD media. From Everest II's unique offset quality, to the unsurpassed speed of PrismPlus! to Liberty's bold, rich images, Rimage has the ideal print solution for your information environment.

RIMAGE MAKES A POWERFUL IMPACT...EVEN MORE POWERFUL

- **The Color of Success** — Rimage gives you spectacular color and crystal clear text and graphics whether you're printing one-of-a-kind or thousands of the same.
 - > Everest II's innovative thermal re-transfer technology reproduces colors, text and graphic images at an amazing 173 lines-per-inch, surpassing magazine standards (133–150 lpi) to create a unique photo-realistic result. Everest II is the only printer on the market that prints edge-to-edge, on the hub *and* allows you to customize print and saturation settings to create the look you want.
 - > PrismPlus! thermal printer, with its exclusive Perfect Print™ feature, offers stellar monochrome and color printing with impeccably clear text and full custom capabilities. The Perfect Print feature on our automated solutions also allows you to print text on pre-silkscreened CDs or DVDs.
 - > The Liberty desktop thermal inkjet printer, with powerful HP enabled technology, prints an astonishing 4800 dpi with a full spectrum of 16.7 million colors. And with the smallest ink droplet on the market (4 pl), Liberty offers unrivaled ink control.
- **Unprecedented Speed** — Rimage printers match quality with speed. Everest II burns through every job at a remarkable pace, surpassing the original Everest to increase your productivity. PrismPlus! creates a label in an amazing 7 seconds, the fastest print rate for full coverage labels ideal for high volume output. Through Rimage's unparalleled engineering expertise, the Liberty desktop printer features the best speed in its class. Whatever your print labeling needs, Rimage printers provide the speed to succeed.
- **Reliability and Durability** — Rimage gives you innovative technology for lasting results. Everest II creates indelible images for unprecedented permanence and durability. PrismPlus! features a unique process that requires no drying time and produces stable, durable text and graphics that won't degrade. And Liberty's specially formulated ink resists scratches and smudges—professional quality from your desktop.

A PRINT SOLUTION FOR EVERY CHALLENGE

Available as stand-alone units or as an integrated part of an automated CD/DVD publishing system, Rimage has engineered a cost-effective solution for every information environment. Rimage printer technology is paired with a range of publishing solutions to meet every data publishing, duplication, storage or printing need from one-of-a-kind label printing, to large capacity performance, to convenient, professional quality straight from your desktop. Customize your labels with Rimage's CD Designer label creation software or print labels you create with your existing graphic applications. Engineered to maximize efficiency, Rimage printers deliver your image perfectly and economically.

AutoEverest II

EVEREST II

- Durability and image quality ideal for commercial use
- Reduced printing time and even better print quality
- Photo-realistic color, plus monochrome and grayscale
- Maximum flexibility for mainstream applications

AutoPrismPlus!

PRISMPLUS!

- Top speed printing for production use
- Economical monochrome and color printing
- Direct thermal printing process requires no drying time
- Perfect Print™ allows text printing to pre-screened discs

LIBERTY

- World class printing for small to medium businesses
- Smallest droplet for unsurpassed ink control
- 4800 dpi resolution for superb color management
- Initial and per print costs fit desktop needs

IMPECCABLE PRINT FOR EVERY ENVIRONMENT

At Rimage, our clients are as diverse as our solutions. Whatever your print labeling needs, you can expect impeccable performance and unparalleled speed—engineered for efficiency and affordability. From the Everest II, perfect for users with high-end image and durability requirements, and PrismPlus! that is ideal for software developers or document managers to Liberty's groundbreaking new desktop technology for small to medium businesses and general office environments, we're committed to enhancing your company's image—disc after disc.

Advancing the art of digital delivery for unique label printing environments.

The Perfect Print™ feature on Rimage's AutoPrismPlus!™ and all Prism-equipped CD/DVD publishers, allows you to control text and graphics alignment with artwork prescreened on CDs or DVDs.

Rimage's AutoPrismPlus! and AutoEverest II offer automated solutions where high volume label printing is a must.
